<b>Total.....</b>	<b>100%</b>

Bug Bomber is the first choice in effective control for all stages of listed insects.

- **Made with Organic Ingredients**
- **Non-Toxic**
- **EPA FIFRA 25 (b) Exempt**
- **No Chemical Residues**
- **A Real Solution for Listed Insects**

### Safe and Effective

Extensive testing and evaluations have concluded that Bug Bomber ranks among the safest products available on the market. Bug Bomber is set to be a leading solution control to white flies, mosquitoes and thrips.

### Recommended Application Rates

**Adult Aerial Application:** Dilute 3 oz. per gallon of water. Apply a fine mist over infected area. Repeat as necessary.

**Fogging:** Mix 3 oz. per 1 gallon of water. Apply as a space spray through conventional fogging equipment misting systems (including mist sprayers and mist blowers), automated spray systems, and/or related application technologies. Retreat if re-infestation occurs.

**Outdoors/Perimeter Treatments:** Dilute 3 oz. per gallon of water and apply at a rate of 1 gallon per 1,000 square feet or until area is thoroughly wet. Also apply to a band of soil and vegetation 6-10 feet wide around and adjacent to buildings. Treat the building foundation to a height of 2-3 feet with sufficient water for coverage. Make special efforts to spray areas where pests congregate and around potential entry areas such as eaves, windows, doorways, porches, and around utility boxes. Treat harborage areas such as shrubbery and vegetation where mosquitoes/flyes may rest. Repeat as necessary.
