

Calcium Grow

Guaranteed Analysis

Calcium (Ca).....	10.00%
(Derived From Calcium Chloride)	
Inert Ingredients.....	90.00%
Total	100.00%

Directions

Calcium Grow is a liquid nutrient carrier for plant health. Calcium stimulates growth of soil life, including nitrogen fixing bacteria and helps create a healthy environment for the plant.

Dilution:

- **Soil Application:** Apply 3 to 4 gallons per acre, a minimum dilution rate of 10:1, with liquid nitrogen fertilizer or water.
- **Foliar Application:** Apply 2 to 4 quarts per acre, per application. Calcium Grow can be foliar applied through : drip irrigation, chemigation, air or ground equipment.

Mixing with Other Products: Do not apply with fertilizers containing phosphate or potash. Not compatible with any glyphosate formula, 2, 4-D amine or ester herbicides.

Storage: Keep container sealed tightly when not in use. Keep production a cool location away from direct sunlight. Store in temperature between 5°C(41°F) and 25°C(77°F).

Caution: Keep out of the reach of children.

Warning: Precautionary statements: Observe good industrial hygiene practices. If product enters eyes, flush with water for 15 minutes. If symptoms occur, consult a physician. If product contacts skin, rinse with soap and water. Consult a physician if symptoms persist. If inhaled, remove victim to fresh air and keep at rest in a position comfortable for breathing. If swallowed, seek medical attention if discomfort persists.
